

## SUSSEX FUNERAL SERVICES

# Local Crematorium Price Information

Crematorium fees are set by the crematorium, not by us, and we pass them on exactly as charged. They are the largest third party cost in most cremation funerals, and the time of day you choose can change them a good deal. These are the fees at the two crematoria we use most.

## Woodvale Crematorium

| Additional chapel time<br>60 minutes          | £450 |

Bear Road, Brighton, BN2 3PL. Operated by The Crematorium and Memorial Group. Fees as advised by the crematorium for 2026/27.

**What the crematorium fee covers.** The administration and registration of the cremation, use of the chapel with a member of their staff to assist, music during the service, the cremation itself, the environmental levy, and either the scattering or interment of the ashes in their grounds or their preparation for you to collect.

**There is no crematorium fee for a child.** For anyone under 18 the fee is met by the Children's Funeral Fund for England, at both crematoria.

**Choosing a quieter time costs less.** An early service at Woodvale saves £219 against the standard weekday fee, and an early or later service at The Downs saves £100 or £200 against the daytime fee. We are happy to look at what is available.

**Cemetery and burial fees** are set by the council or the cemetery and are listed in our Full Itemised Price List, along with all of our own charges.

These are third party fees and can change, including at the crematoria's own six monthly reviews. We will confirm the exact fee that applies to your funeral when the arrangements are made, and it will be shown separately on your written estimate. Other charges may apply for services not listed here, for example weekend or bank holiday services; please ask and we will find out for you.
